Abstract

The abstract should summarize the highlight of work in not more than 150 words. The text should be in italic and justified. Leave one space between and after the abstract. The text should be typed in single columns in Times New Roman (font size 12) with single spacing, as shown in the template. Abstract with insufficient information or improper format will not be considered.

The title, authors, affiliations and addresses should be centred. The name of the corresponding author should be highlighted by asterisk (*). Leave one space each between the title, authors, addresses and content of the paper. The affiliation should include the institution, department, and country in this sequence. The text itself should be justified. Leave one space between the paragraphs. The text should be typed in two columns in Times New Roman (font size 12) with

single spacing, as shown in this template.

Enough scientific information about the work should be reflected in the text and the space of one page should be completely utilised. Papers with insufficient information or improper format will not be considered. Introduction and experimental section should be kept to a minimum and more emphasis should be placed on salient results of the work.

Based on figure size, it should be included in a text box so that the remaining space can be utilised for providing more discussion. The authors should ensure to provide figures with good resolution as these will be reproduced as submitted. The same is applicable for placing table, depending on the number of columns.
